

Trey Hardin Digital Designer

Sweden Unlimited

Design Lead

May 2018 – Present

My current position entails a wide range of responsibilities – from managing a team of creatives and leading design projects, to pitch work, process documentation, and hiring. I work directly with the founders to interface between them and the team, and I oversee all design projects while still working as a dedicated designer on several of them.

Avex

Senior Designer

October 2015 – May 2018

At Avex, I was the lead designer, managing almost every aspect of creative output from the agency. I worked directly with clients at every step of the process – defining project scope, mocking up wireframes, building out detailed designs, working with development partners to QA, and more.

Greatest Creative Factor

Graphic Designer

Summer 2015

At GCF, I worked under creative direction to produce print and digital assets for clients in the field of education. I created unique solutions for promotional materials in universities and colleges, and collaborated with a local development team to ensure the quality of deliverables.

Helm's Workshop

Production Designer

June 2014–August 2014

During my internship at Helm's, I worked in production for a number of clients in the food and beverage space, doing market research, creating contextual assets, and assisting the design team in various capacities.
